PROFESSIONAL EXPERIENCE

FOUNDER AND LEAD DEVELOPER | F1 Technologies, Grosse Pointe Woods, MI | June 1990 to Present

- Pioneered the launch and continued leadership of this software development company offering product development, training, custom application development and product distribution.
- Serves in a leadership or contributory role on teams of as many as 20 professionals in the capacity of lead developer, developer, project manager, and architect.
- Navigates the end-to-end SDLC process, from initial requirements gathering to design, data modeling, object modeling, wireframe development, coding, code review, unit testing, and ongoing support/maintenance.
- Excels in business development, securing client engagements ranging from thousands to millions of dollars across multiple industries with companies that have included Petro Canada, Midwest Tape/Hoopla Digital, General Motors, First Premier Bank, HCR ManorCare, Microsoft, Teledyne, Mitsubishi Electronics.
- Credited with serving as the Designer, Lead Developer, and Chief Evangelist of the award-winning FoxExpress and Visual FoxExpress application frameworks and RAD tools, which sold over 10,000 copies in over 100 countries; developed documentation, classroom, and video-based training materials. Executed and delivered keynotes at nine developer conferences in Las Vegas, Detroit, and Toledo. Recognized with a Visual FoxPro Lifetime Achievement award.
- Serves as an industry thought leader at conferences throughout North America and Europe, presenting at conferences and hosting discussions of software development, object orientation, web development, the business of software and other related topics.
- Recipient of the Best Microsoft FoxPro Add-On award from Database Advisor Magazine.
- Served as a design consultant to Microsoft for the 1.0 version of the .NET Framework.

Key Client Engagements

- **Lead Web Developer for Waudware Inc.** Developed SaaS purchasing and shopping cart applications meeting the needs of the Produce industry. Development environment included HTML, JavaScript, CSS, React, Material UI, AngularJS and AngularJS Material & Storybook. Created Back-end REST APIs by wrapping the legacy desktop application code base.

Continued...

- **Senior Developer for WellProfits.** Leveraged expertise in JavaScript, HTML, CSS, Vue, JQuery, and Google Maps API to build an SaaS accounting software application for the Oil & Gas industry. Back end development accomplished using West Wind Web Connection, QuickBooks API, and OAuth2.
- **Senior Developer for First Premier Bank.** Developed modules for a WPF application for the bank to manage all facets of its credit card business, using C#, WPF, SQL Server, Jira, MVVM Light, Resharper, and Posh GIT.
- **Senior Developer for Midwest Tape/Hoopla Digital.** Developed a front-end application for processing incoming EDI Orders and back-end REST API. Developed .NET Windows Services to facilitate integrations with SAP, web applications and in-house legacy systems. Technologies utilized included ASP.NET MVC, ASP.NET Web API, ASP.NET Core, AngularJS, AngularJS Material, OData, ActiveMQ, AWS DynamoDB, Oracle, LINQ & ADO.NET. Mentored in-house developers.

SUPPORT AND MARKETING TECHNICIAN | Fox Software, Perrysburg, OH | March 1989 to June 1990

- Provided lead technical support for the company's portfolio of programming languages and database management systems.
- Performed in-house development of xBase systems and xBase portions of FoxBase+.
- Represented the company on corporate calls, at trade shows, and in front of user groups, presenting software products.
